

Fraud Detection Platform

Real-Time AI-Powered Fraud Monitoring & Transaction Risk Intelligence

An enterprise-grade command center that ingests every transaction in real time, evaluates it against a configurable 17-rule fraud engine, and produces an explainable 0–100 risk score in milliseconds — giving fraud teams the speed to stop losses and the transparency to defend every decision.

KEY CAPABILITIES

Real-Time Detection

Every transaction scored and routed in milliseconds as it happens

Explainable Rule Engine

17 configurable rules with full pass / fail transparency

AI Risk Scoring

Weighted 0–100 score drives an automatic decision

Case Investigation

Full timeline, customer 360° view, and audit trail

TECHNOLOGY STACK

Frontend

React, Vite, TypeScript, Tailwind CSS

Backend

FastAPI (Python)

Database

PostgreSQL

ORM

SQLAlchemy 2.0

Scheduler

APScheduler

Real-Time

Redis Pub/Sub & WebSockets

Charts

Recharts

Security

Token-based session authentication

PLATFORM HIGHLIGHTS

17

Fraud Detection Rules

100+

Customer Profiles

Live Fraud Investigation

END-TO-END WORKFLOW

BUSINESS VALUE

Reduce Fraud Losses

Intercept high-risk transactions before funds leave the bank

Improve Detection Speed

Millisecond scoring replaces hours of manual review

Support Compliance

Every decision is logged, explainable, and auditable

Enhance Customer Trust

Legitimate customers move faster with fewer false declines
